

## STA OUTREACH REPORT FOR 6-16-16

It was just a nice steady flow of participants today. Ten copies of S&H went out and several of The Ultimate Freedom. Two members of Security came by to talk at different times, including one new man who wanted to know about what we are doing every Thursday. He had heard of Christian Science but knew nothing about it, and was pleased, as a dedicated Christian, to get to know more. Quite a charming young man who will routinely smile at the folks---unlike a lot of "poker faces" displayed by security men and women---and treat all with great respect.

The most fun thing today was a boy who is somewhere around 9 years old and came to the bus plaza with his grandmother. He was such a bright-eyed and interested person that it was hard to say "No, this is only for adults." After a good amount of looking over the displayed books and copies of the Sentinel he decided he really wanted The Ultimate Freedom...so his grandmother said she'd read it together with him.
